SECOND TEMPLE CUP GAME.

BOSTON.

KLOBEDANZ FORCED TO RETIRE - A

Boston, Oct 5 .- The second game in the Temple

Cup series was like the first, distinguished by

terrific batting on both sides, but to-day the Balti-

more men came out ahead through their ability to

get in the hits when they were most needed. Cor-bett, though hit hard, held the home team down

at critical times. The game was much more in-

teresting and exciting than that of yesterday, and

the home team was in it up to the last inning, when they fell down wofully. One safe hit would have

tied the score. No ground rules hindered long hits, and the players, getting the full worth of

interest of the game, and delighted the crowd be-

youd measure. Again there was perfect weather

and there was only a small kick in the last inning on account of the gathering darkness.

The shining star of the day was Herman Long.

the shor stop of the home team. One ball from

Doyle's bat he picked up twenty feet behind second

base and retired the runner. McGraw hit another

fate. Long's double plays in the first inning were

equally fine. For Baltimore Stenzel's covering of

centre field was notable. Nine Boston players were

dropped. For the visitors Corbett and Clarke led

Rossifer DECISION AGAINST RILEY GRANNAN.

HIS EXCLUSION FROM THE WESTCHESTER RACE-TRACK UPHELD ON APPEAL Albany, Oct. 5.-The Court of Appeals has decided against Riley Grannan in his case against the Westchester Racing Association, an appeal from disbar-ment from the track by the Board of Stewards. Grannan was accused of giving to Taral, the jockey, \$500 on the track of the Westchester Racing Associa-

tion against the rules of the Jockey Club and was

ruled off the track. He contended that it was merely

ruled off the track. He contended that it was merely a present to Taral for fine riding, and not in any sense a bribe. The Appellate Division upheld Grannan, on the ground that he had not had a proper hearing. That decision is reversed, and the disbarment is upheld.

The Court does not answer the question as to who there the stewards may discriminate as to who shall or shall not be entitled to admission, but holds that they may eject from and refuse admission to persons who violate justifiable and reasonable racetrack rules.

THE BICYCLE AFFECTS HORSE-BREEDING. Los Angeles, Cal. Oct. 5.—Haggin & Levis have virtually abandoned the raising of driving horses for the market. H. A. Stro, who has charge of the firm's great ranch in Kern County, has just sold 126 horses and ponies in this city. He says: "We have not been breeding driving horses to any extent for three years. The demand for this class of horses has gradually diminished, and the prices have consequently fallen. This state of affairs is to be attributed, in my opinion, to the coming of the bleycle and the great progress that has been made everywhere in the State in the construction of electric railways."

feeling is running high. President Iglesias has put himself in the field as a candidate to succeed himself, and a flerce opposition has grown up realist him. His political enemies denounce him because he has changed Costa Rica's monetary standard to gold, and because at a cost of \$1.80,000 he is pursing to completion his Pacific Radiroad scheme, which will connect the two oceans by rail. His opponents, who are chiefly urbanites, say the cost of the rairoad is excessive.

On the other hand, the country people indorse President Iglesias, saying that the bridges, rairoads and other internal improvements which he has projected will prove of great hencil to the agricultural population. The little Norwegian fruit steamer Belveron ar-The little Norwegian fruit steamer Belveron arrived here yesterday from Jamaica, after passing through a trying experience with gales and electric and hall storms. When two hundred miles off San Salvador the Belveron ran into a gale that gave the crew all they could do to weather it. Then, on Outsher 2, when southwest of Hatteras another The party on Monday night engaged a box at the music hall and drank rather freely during the performance. Later they became boisterous. After the performance they went to the basement, where there is a bar, and more drinks were ordered. Bome one forgot to pay for sundry drinks consumed and the bartender demanded the money due him. The young men became abusive. Fish was recognized by one of the managers.

AND COMMENTS. Baron de Stampenbourg surprised his friends in the bleycle trade yesterday with the announcement that he was going abroad to-day on a twelve months' trip around the world to challenge the racing men in every locality he visits and uphold American colors. The Baron has formerly made a success of the racing game abroad, where he holds several unbeaten track records, and he bedropped. For the visitors Corbett and Clarke led in the hitting, while Hamilton, of Boston, came in with a clean score. His base-running was superb. Haltimore began on Klobedanz in the first inning, and kept on right up to the fifth, when two bases on balls and a hit were followed by a home run by Reitz, which brought in four runs. Then Klobedanz retired and Stivetts went in, but the change did not mend matters, for Clarke banged the first ball pitched, and put it over the fence for the second home run, and Corbett followed with a two-bagger. Hits after that came at necessary moments. lieves it will be possible for him to reduce the ileves it will be possible for him to reduce the slates abread considerably, as he will be paced by a motor triplet. "I shall, of course, go along in my capacity of sportsman," said he, "and as I am fast behind pace I have an idea I can disturb some record figures. I shall ride an American wheel, geared to 115. I would not ride a lower gear than lost behind pace. I do not believe in small gears, anyhow, and my present 115 will hardly prove too much for me even on the grassey Australian tracks, it go carefully prepared and well equipped to meet the exigencies that may arise in the way of difference in tracks, banking and the weather conditions. By taking my motor triplet along with me I shall derive the benefit of uniform pace wherever I go, which is, as you know, a great advantage in a fight against the clock." Corbett, while wild at times, proved a stumbling black for the home team until the fourth, when six runs came over the plate, five of them being carned. Corbett pulled himself together, and barring the seventh, held Beston down in good shape. Score:

The Good Roads Association of Long Island and the city officials of Brooklyn are at present work-ing in harmony in the effort for better roads. Park Commissioner Dettmer is of the opinion that the concourse between Ocean Parkway and West Brighton should be repaired and a park arranged at the end of the Cycle Path. Mayor Wurster seems to colacide with the Park Commissioner. The need for improvement in Emmons-ave, Croptey-ave, and Ocean-ave, is also admitted. The reason why the improvements have not been made is lack, of funds, but there is at the disposal of the town of Gravesend a fund of \$20,000, a part of which might be used. The Good Roads Association will work with this object in view. The announcement that work will begin on the proposed park at the end of the cycle path will be awaited with interest by riders of the wheel. The large plot of ground to the west at the end of the path is useless in its present condition, and the foundation is there for a cyclists' paradise. missioner Dettmer is of the opinion that the

The Sheriff took charge of their place of business on an execution for \$688 in favor of Griselda Eash, wife of the junior Charles Earl, of the Kings County Wheelmen, is in training for an effort he will make to lower the twenty-four hour amateur record. Earl may make the effort at the Madison Square Garden this whiter. He and Thomas Hail, of the same club, will soon make an effort to break the 109-mile road record between Brooklyn and Patchogue and return. Later this pair, on a tandem, will try for the 209-mile record between this city and Phiadelphia and reurn. Earl is riding in much better form than he has done before this season, and he is conflicted that he will be able to ride as well as ever he did. The sex-uplet recently ordered by the cub, to be used for packing purposes, is expected to arrive to-day. Captain Needham is arranging for several trials against road records.

While the membership in the League of American Wheelmen has not as yet reached the 100,000 mark, it is now near that figure. The total membership to date is \$9.852, or within 198 of the required number. In the last week 74 new members joined the league. Of this number New-York seat in 29, making the total for the State 25,533; Pennsyivania had 112 new members, with a total of 21,554; Massachusetts 49, total 11,556; New-Jersey 27, total 6,599; Illinois, which hopes for the National meet next year, took the lead for the week, reporting 250 new members.

The course will be on the Merrick Road, midway between Lynbrook and Milburn, to and around the triangle at Locust-ave and return. As the Roe boys have gone out of training, the Patchogue Wheelmen will not enter a team. Both the South Brooklyn and the Kings County Wheelmen teams have been working hard, and the race may lie between those two teams. The Patchogue team won the cup last year, and both the Kings County Wheelmen and the South Brooklyn Wheelmen are sorry that Patchogue will not enter a team, as they want revenge for the defeat sustained last year. THE THREE ARCHITECTS SELECTED. The preliminary steps toward the erection of the New-York Public Library are going forward stead-ily, and another important one was taken by the competing architects at a meeting held on Monday evening. According to an agreement reached some time ago, the plans for the new structure will be time ago, the plans for the new structure will be passed upon by a committee consisting of three members of the Board of Trustees, Dr. Billings, the librarian, and three architects. At their mesting on Monday evening the competing architects agreed upon three members of their profession to represent them on the committee. They have been informed of their selection, and their names will be made known as soon as they have signified their acceptance of the appointment. YOUNG SHAMPANSKI ON CLEAN STREETS.

"Mr. H. Shampanski, a member of the 'Junior Assistants' of the Department of Street Cleaning, writes as follows:

"I am very glad to tell Mr. G. E. Waring, jr., that the streets are becoming very, very pretty, since lately, by pretty I mean they are becoming cleaner than what they were.

"I also find that the people obey if you speak nice and kind to them."

An ambulance was summoned from the New-York Hospital, and the injured man taken to that institution. He was attended by Dr. Lassell. It was said last night that it would be impossible for him to recover. The iron cleat was about two feet long, and in falling it struck Keller on the back of the head, tearing away a large segment of the skull and exposing the brain.

The Board of Aldermen again postponed action on the lighting ordinance at the meeting at the City Hall vesterday afternoon. The excuse given for not taking action seems to be too trivial to be considered scriously. The reason given why nothing was done is that Alderman Lantry, who opposed the light ordinance, was not present. On the motion of Aldermen Ware the subject was fall over until the next meeting of the Board. Meanwhile vehicles can travel over the city without lights, and the lives of many people are endangered.

population. Mr. Williams himself thinks that President Iglesias has given Costa Rica an able administration.

Three weeks ago both political parties planned for a parade on the same day in Santo Domingo. About five hundred men were in each line, and they met in the main street of the town, opposite the cathedral. At the cries of the rival factions the trouble began, and a pistol was discharged. This was followed by a fusiliade and the use of knives, which did not cease until three men lay dead and at least thirty wounded in the street. The priests, at the risk of their lives, had rushed from the cathedral, and after strenuous efforts had succeeded in quietling the mob. Two of the wounded died that same day in the cathedral. Among the killed was Señor Zamora, one of Costa Rica's rich men.

When President Iglesias heard of the encounter he declared himself dictator for the purpose of preserving order. Mr. Williams said that he will probably be re-elected.

Mme. la Générale Bataille, the celebrated teacher of singing, has suspended her lessons at 9 rue de Prony till October 1, after giving several matinées, at which her numerous pupils gave some really remarkable exhibitions Among these pupils are a number of young ladies belong-ing to the first families in Paris, such as the daughters of the Marquise d'Harcourt, Marquise de Rolland Dalon, Marquise de Lussac, Comtesse de Chabaud La Tour, and also artiste belonging to the principal theatres, such as Miles. Charlotte Wyns and Vilma, of the Opera-Comique. Before her marriage to General Bataille, Mms. Bataille had achieved a brilliant artistic career under the name of Marie Monbelli in England, at Covent Garden; in Gerof maris Montelli in England, at Covent Garden; in Ger-many, in Austria, and in Holland. After the death of General Bataille she wished once more to devote herself to art, and established in Paris a school of singing, founded on the traditions of the method of Garda, of which she is now almost the sole representative.
